

INTRODUCTION/ COURSE OVERVIEW

The Advanced Certificate in Ports and Maritime Security: Risk Management & Investigation is a formally recognized qualification and is also recognized at higher education level. The units contained within the certification are endorsed by the Australian Ministry of Education & all Australian Police Services.

This hands on course takes a practical approach in identifying and responding to threats and safety issues relevant to Ports, Shipping and terminals so that procedures can be put in place and changes made to minimize risk and therefore reduce the likelihood of an incident. These threats include piracy, fires, criminal acts, spillages, security breaches and other related incidents.

Many companies are only reactive in their approach to risk. If a safety matter is brought to their attention then action is taken. This course looks at pro-active ways to investigate risk and identify weaknesses in operating procedures and systems before they escalate.

TWO EXCLUSIVE CASE STUDIES

1. Recent Piracy Incidents - What are we doing and is it working?
2. Lock down and Piracy Preventative Measures

The monetary benefits to any company using a Pro-Active approach can be substantial as you are identifying threats and issues before they happen, not after they happen.

Whilst most companies use theory based training, the 360BSI & Australian School of Security and Investigations uses true to life training scenarios that require course participants to make decisions under difficult and stressful conditions whilst under the guidance of our professional and experienced instructors.

“ Amateurs train until
they get it right,
Professionals train until
they cannot get it wrong ”

This programme is specifically designed to address current security and risk threats within the Maritime Shipping and Ports industry. The training is both practical and realistic and is relevant to this working environment.

THE TESTIMONIALS

- 1 The course quickly changes your mind. All in all, best course I have ever done.
- 2 Adrian was outstanding with his delivery of the course. Without a doubt the best, most down to earth and relaxed instructor.
- 3 I think I speak on behalf of the participants there when I sum up the course and in a word 'Fantastic'
- 4 For anyone that involve in Ports & Maritime Security, I will recommend this course, it makes you realize and respect what is involved. I'm looking forward to the next workshop by Adrian
- 5 I would like to thank Adrian for putting on a great course. We learnt about the real world, and were shown the real world.

YOUR INTERNATIONAL COURSE FACILITATOR

“ We train your staff,
not teach them ”

COURSE CONTENT

ALL SESSIONS WILL BE THEORY AND PRACTICAL BASED

DAY1 KNOWING OUR ENVIRONMENT

- Understanding the environment we work in
- Ports and Ship design – Security and Safety implications
- Staff and External Contractors – Considerations
- Threat Assessment & Management
- Natural Disasters
- Planning for Terrorism
- ★ Practical Exercise – Exposing Security Flaws. This exercise is designed to provide a practical and sometimes disturbing demonstration of the flaws in ports security.

DAY2 MANAGING OUR ENVIRONMENT

- Legislation affecting the Maritime industry
- Occupational Health and Safety – Your obligations
- Planning for the unknown
- Intelligence gathering – What do we do with information?
- Indicators & Identifying potential threats
- Effective Communications
- Emergency Evacuation procedures – What should we consider?
- Unlawful Boarding
- Drills – How to make them effective
- ★ Practical Exercise – Communications – This practical exercise is designed to demonstrate the importance of clear and descriptive communications using a range of equipment.

DAY3 EFFECTIVE RESPONSE TO A SECURITY OR INCIDENT THREAT

- Emergency Response – What does the first person on scene do?
- Working as a team
- Communications Management & Systems
- Checking your Resources
- Ship Board Alert and Alarm Systems
- Talking to the Media
- Business Continuity – Do you have a plan
- ★ Practical Exercise – Reverse Role Play – This exercise is designed so that delegates look at Infrastructure Security risks from a different perspective. This is a very powerful and eye opening exercise and is used in many of our training courses to great success.

DAY4 INVESTIGATION METHODOLOGIES

- Determine method of investigation
- Compile investigative report
- Provide quality investigative services
- Surveillance, criminal and factual investigation techniques
- Gather information through interviews
- ★ Practical Exercise – participants will carry out a surveillance exercise.

The enclosed information is a general overview of the course we offer. However each course can be tailored to suit individual client needs. The type of scenario training and resources utilised is dependent upon environmental, legal and geographical constraints.

COVERAGE

- Regulatory Environments
- Communications: Problems and Solutions
- Failure to Identify Hazards
- What is Operator error
- Handling Stress in a Response
- FEMA Threat
- Vulnerability Assessment
- Risk Analysis
- Occupational health and safety
- Response Management Plans
- Designing Reporting Systems
- Critical Incident Staff Selection
- Media Management
- Investigation Techniques

WHY YOU CANNOT MISS THIS EVENT

The Advanced Certificate in Ports and Maritime Security: Risk Management & Investigation course is designed specifically to address security risks and threats within the Maritime, Ports and Shipping Industry.

Some areas could include:

- Ports, Container Terminals, LNG Storage, Pipelines, Petrochemical & Gas Terminals, Warehouses - Bombing, Leakage, Explosion, Terrorist Incident, Accident with numerous people, Narcotic smuggling, Human trafficking, structural collapse, others
- Cargo Ships, Bulk Carriers, Cruise Ships - Piracy threats, Accidents, major Contamination, Bomb, Gas explosion, terrorist Incident, Major Incident, stowaways

WHO SHOULD ATTEND

- Security Directors, Head, Managers
- Coast Guard & Maritime Police
- Risk Managers
- Building & Facility Managers
- Port Facility Security Head, Managers, Officers
- Security vendors and houses
